

# Research

---

## Current Research

You can find out all about all the research undergrads do by clicking the link.

## How to Get Involved

Getting involved with research can be tricky but redShift is working to make that process more transparent. Click the link to find out how.

## Research Funding

Getting money for research can be tricky but redShift is working to make that process more transparent. Click the link to find out how

## Facilities and Resources

As a student you have access to many resources available through the astronomy department and others.

## Presenting Your Research

Talks are a common part of any scientists career but unfortunately most scientists aren't so great at it. Read some tips on how to give a good talk.
